

JULIET'S CUBS 2014

RAY

Ray is playful but much more gentle than the other two and a bit on the shy side. He seems to follow the lead of his two brothers.

Eyebrows have a sharp V, ears have more light color than Charlie and not quite as much as Bernard.

Dark stripe on ears is thinner due to the amount of light color.

BERNARD

Bernard is very playful and often gets that determined look in his eye just before he lunges at his siblings and chomps their ear, pinning them to the ground. He is a cute little brute of a cub.

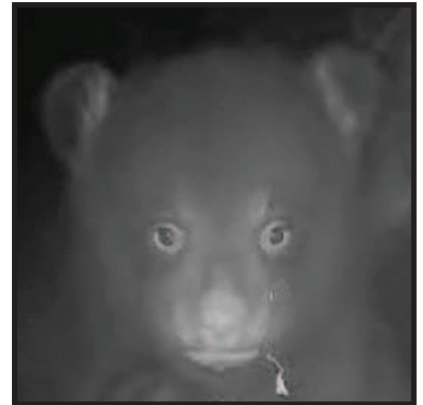

Eyebrows are more diffused, with a U shape, face is lighter in color, ears are bright. Has darker coloring under eyes.

Dark stripe on ears is thinner due to the amount of light color. Face and jawbone are lighter in color than others.

CHARLIE

Charlie is the adventurer of the bunch. Often the first to wiggle his way free of Mom, off to explore and get into trouble. He can often be found on his own blazing the trail for the others.

Eyebrows are similar to Ray with a V but not as bright, distinct or high. Ears have the least light color of all 3 cubs.

Dark stripe on ears is thicker, due to less light color on front and back of ears.
